

Agri Terra KG – Insurance Coverage for Agriculture Investments in Paraguay

- **Breach of Trust Insurance:** We have a policy with the **Zurich Group** which covers any loss of funds entrusted to our company due to negligence or premeditated intent by our key personnel.
- **All Risk Insurance:** We have a policy with South American market leader **Sancor Seguros**, which covers any risk that could potentially lead to the loss of our investments, e.g. fire, hail, frost, pests, theft, flooding, sabotage, etc. The policy covers the replacement of the investment and also the loss of income to a limited degree.
- **Cattle Pool Insurance:** All cattle purchased for grazing and care are covered by an **insurance pool** that is calculated into the purchase contract and shared equally by all buyers. Therefore, any animal replacement costs are shared by all buyers.

We include the above insurance coverage in all of our pricing as a service to our valued clients with the intention to provide a sense of security when investing with Agri Terra KG.

Best Regards,

Carsten Pfau
